News Release

USfalcon Inc awarded contract to support new technologies

Morrisville, N.C. – **USfalcon Inc** has been competitively awarded a two year (12 month base and one 12 month option) \$7.4 million contract for Technical and Engineering Support for the U.S. Army Communications-Electronics Research Development & Engineering Center, Command and Control Directorate (CERDEC C2D) under its Strategic Services Sourcing (S3) contract vehicle that the company holds with the Army in support of the Command, Control, Communications, Computers, Intelligence, Surveillance, and Reconnaissance (C4ISR).

CERDEC's mission is to develop and integrate Command, Control, Communications, Computers, Intelligence, Surveillance, and Reconnaissance (C4ISR) technologies that enable information dominance for the networked Warfighter. **USfalcon** along with its teammates will provide various Engineering, Business Operations and Logistical support services for CERDEC C2D Battle Command and Position/Navigation initiatives, such as In-Dash, Army Technology Objectives (ATO), Command and Control of Robotic Entities (C2ORE), Biometrics Identification Notification Service, Assured Position Navigation systems and Advanced Information Displays.

USfalcon, Inc. provides integrated business and technology solutions to a wide range of Government and corporate clients, and has been recognized as one of the fastest growing companies in the United States. A privately held, certified 8(a), Small Disadvantaged Business (SDB), Service Disabled Veteran Owned (SDVO), **USfalcon** is headquartered in Morrisville, NC, and has offices in Shrewsbury, NJ, Calverton, MD, Lowell, MA, Colorado Springs, CO and Huntsville, AL. For more information, visit the website at www.usfalcon.com.

Approved For Release: November 2008
